Professional Summary

Computer Science Engineering undergraduate at MIT ADT University with strong interests in Artificial Intelligence, Full Stack Development and Software Engineering. Experienced in building AI-enabled applications, web platforms and automation tools using Python, Java, React, FastAPI and Firebase.

Technical Skills

Languages: Java, Python, C, C++, JavaScript, SQL **Frontend:** HTML, CSS, React.js, Next.js **Backend:** FastAPI, Flask, REST APIs
Databases: MySQL, Firebase Firestore **Tools:** Git, GitHub, Docker, VS Code, Eclipse, Jupyter Notebook **Concepts:** OOP, DBMS, OS, Data Structures

Experience

Full Stack Developer Intern – Logic Works

June 2026

- Developed EbookSphere, a personalized full-stack web application with authentication, recommendations and database integration.
- Worked across frontend, backend and database layers; collaborated with the team to deliver production-ready features.

Projects

Autonomous Developer Workspace – Python, FastAPI, Next.js, Firebase, Docker, LangGraph

- AI-powered developer platform for automated code generation, testing, code review and deployment; Next.js frontend, FastAPI backend, Firebase Firestore, with real-time collaboration, role-based auth and CI/CD simulation, containerized with Docker.

EbookSphere – Full Stack Web Development

- Personalized full-stack eBook platform with user authentication, recommendations, responsive UI and backend APIs for content management.

Bone Age Detection using Deep Learning – Python, Deep Learning, Flask

- Deep learning model for pediatric bone age prediction from hand X-ray images, with a Flask-based prediction interface.

Smart Attendance System – Python, OpenCV

- Face recognition based attendance system automating attendance recording with improved efficiency.

Finance Tracker & Personal Portfolio Website

- Responsive finance tracker with dashboard-based visualization for income, expenses and budgeting; and a deployed personal portfolio site showcasing projects, skills and certifications.

Education

MIT ADT University, Pune – B.Tech, Computer Science and Engineering	2024–2028, CGPA: 8.02
MIT Junior College – HSC	65.33%
Angel High School – SSC	86%

Certifications

Prompt Engineering — Data Science (Udemy) — AI & Machine Learning (Udemy) — C, C++, Java Programming — HTML & CSS
